

# MAKE THE MOST OF EVERY NIGHT OUT

## Go to the most vibing venues

The Bardar app helps you find pumping venues anytime, anywhere. Check to see if a place is going off now and get forecasts for the whole night.

## Find the best events

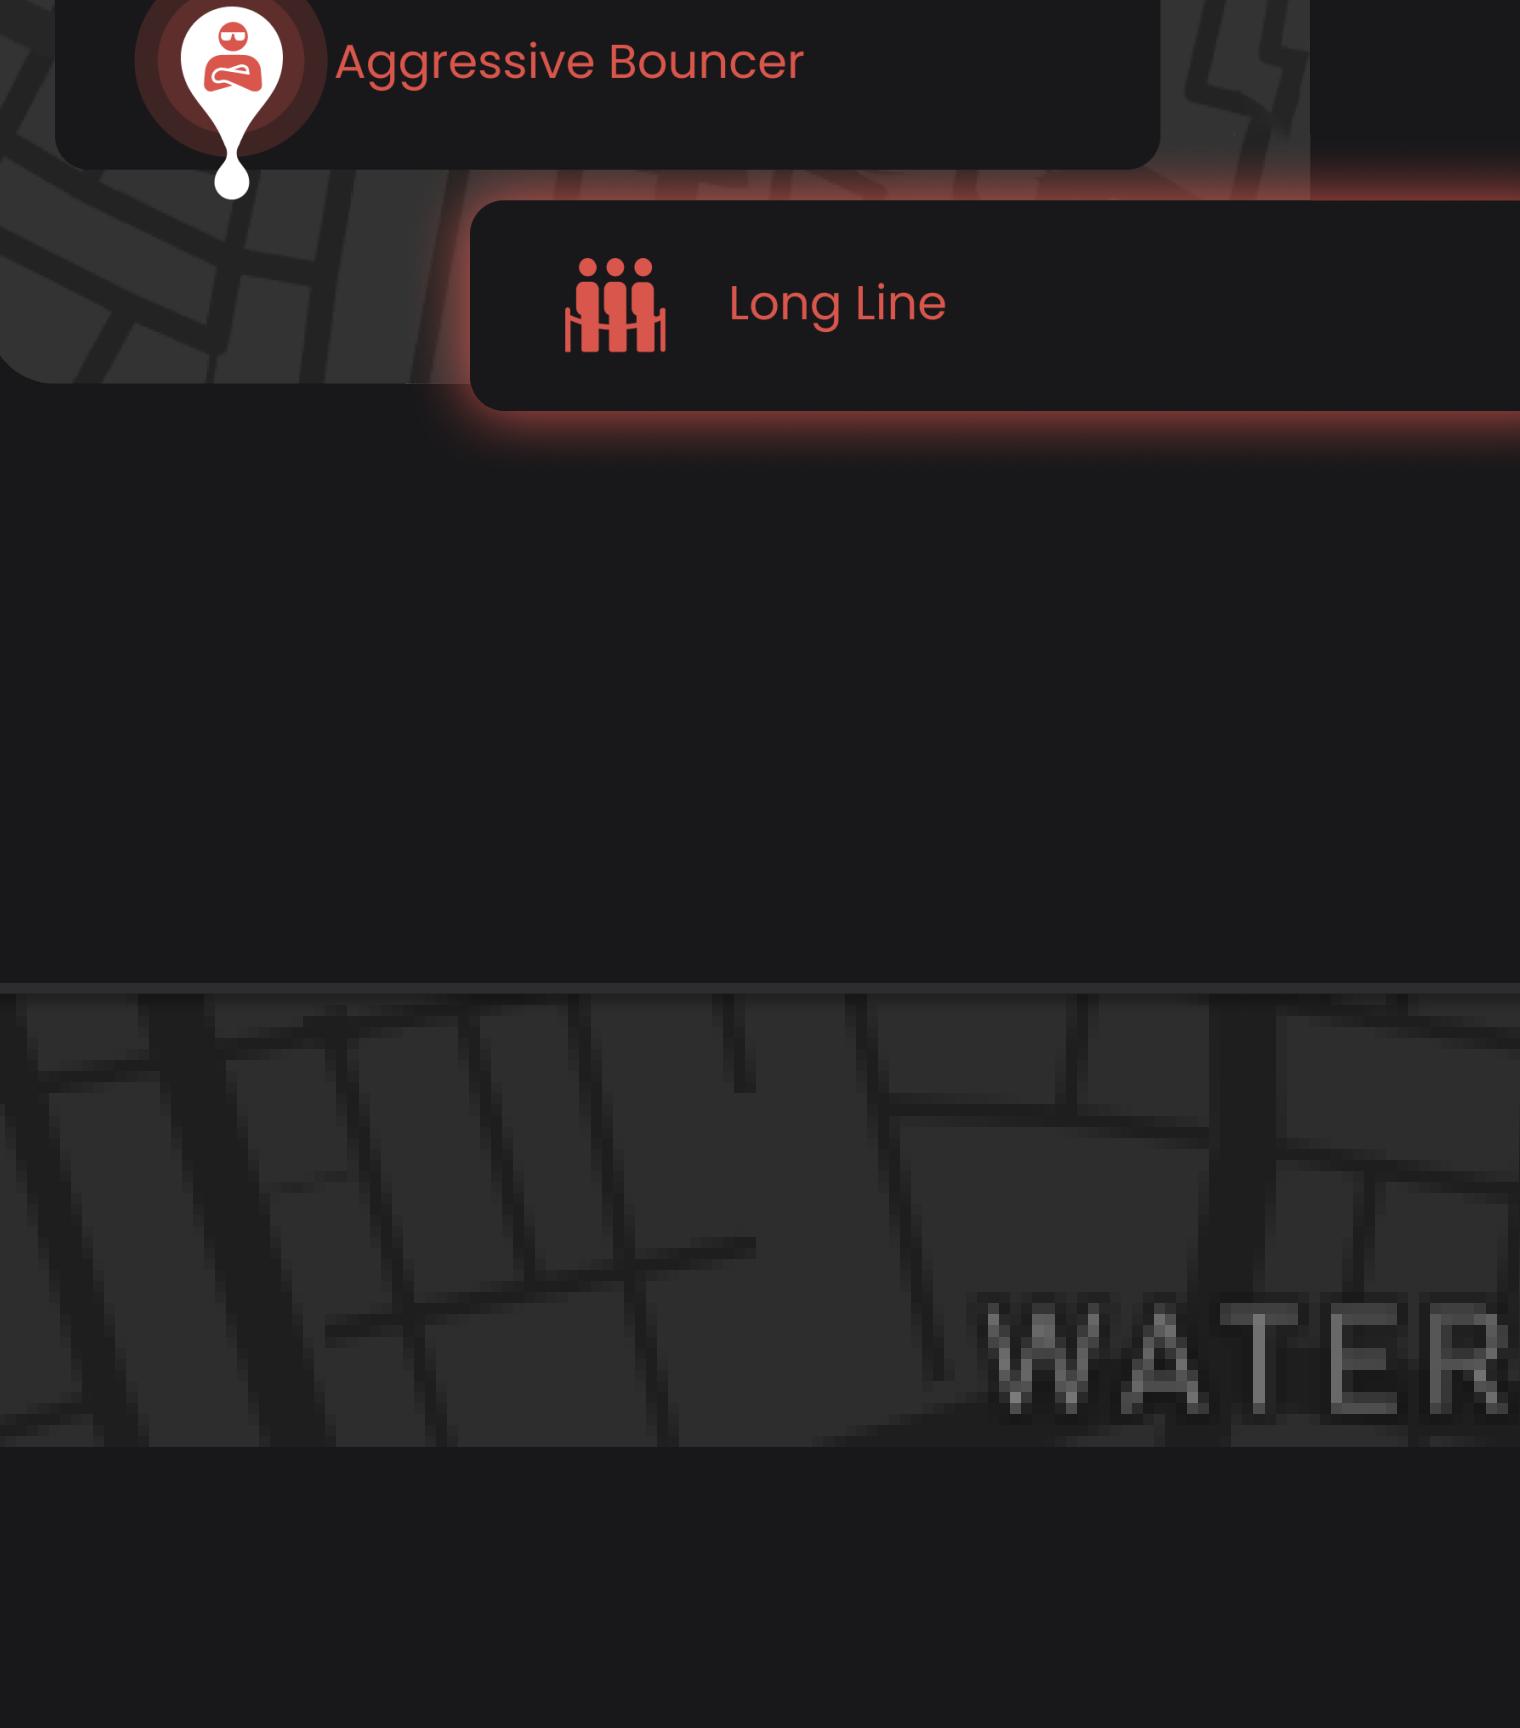

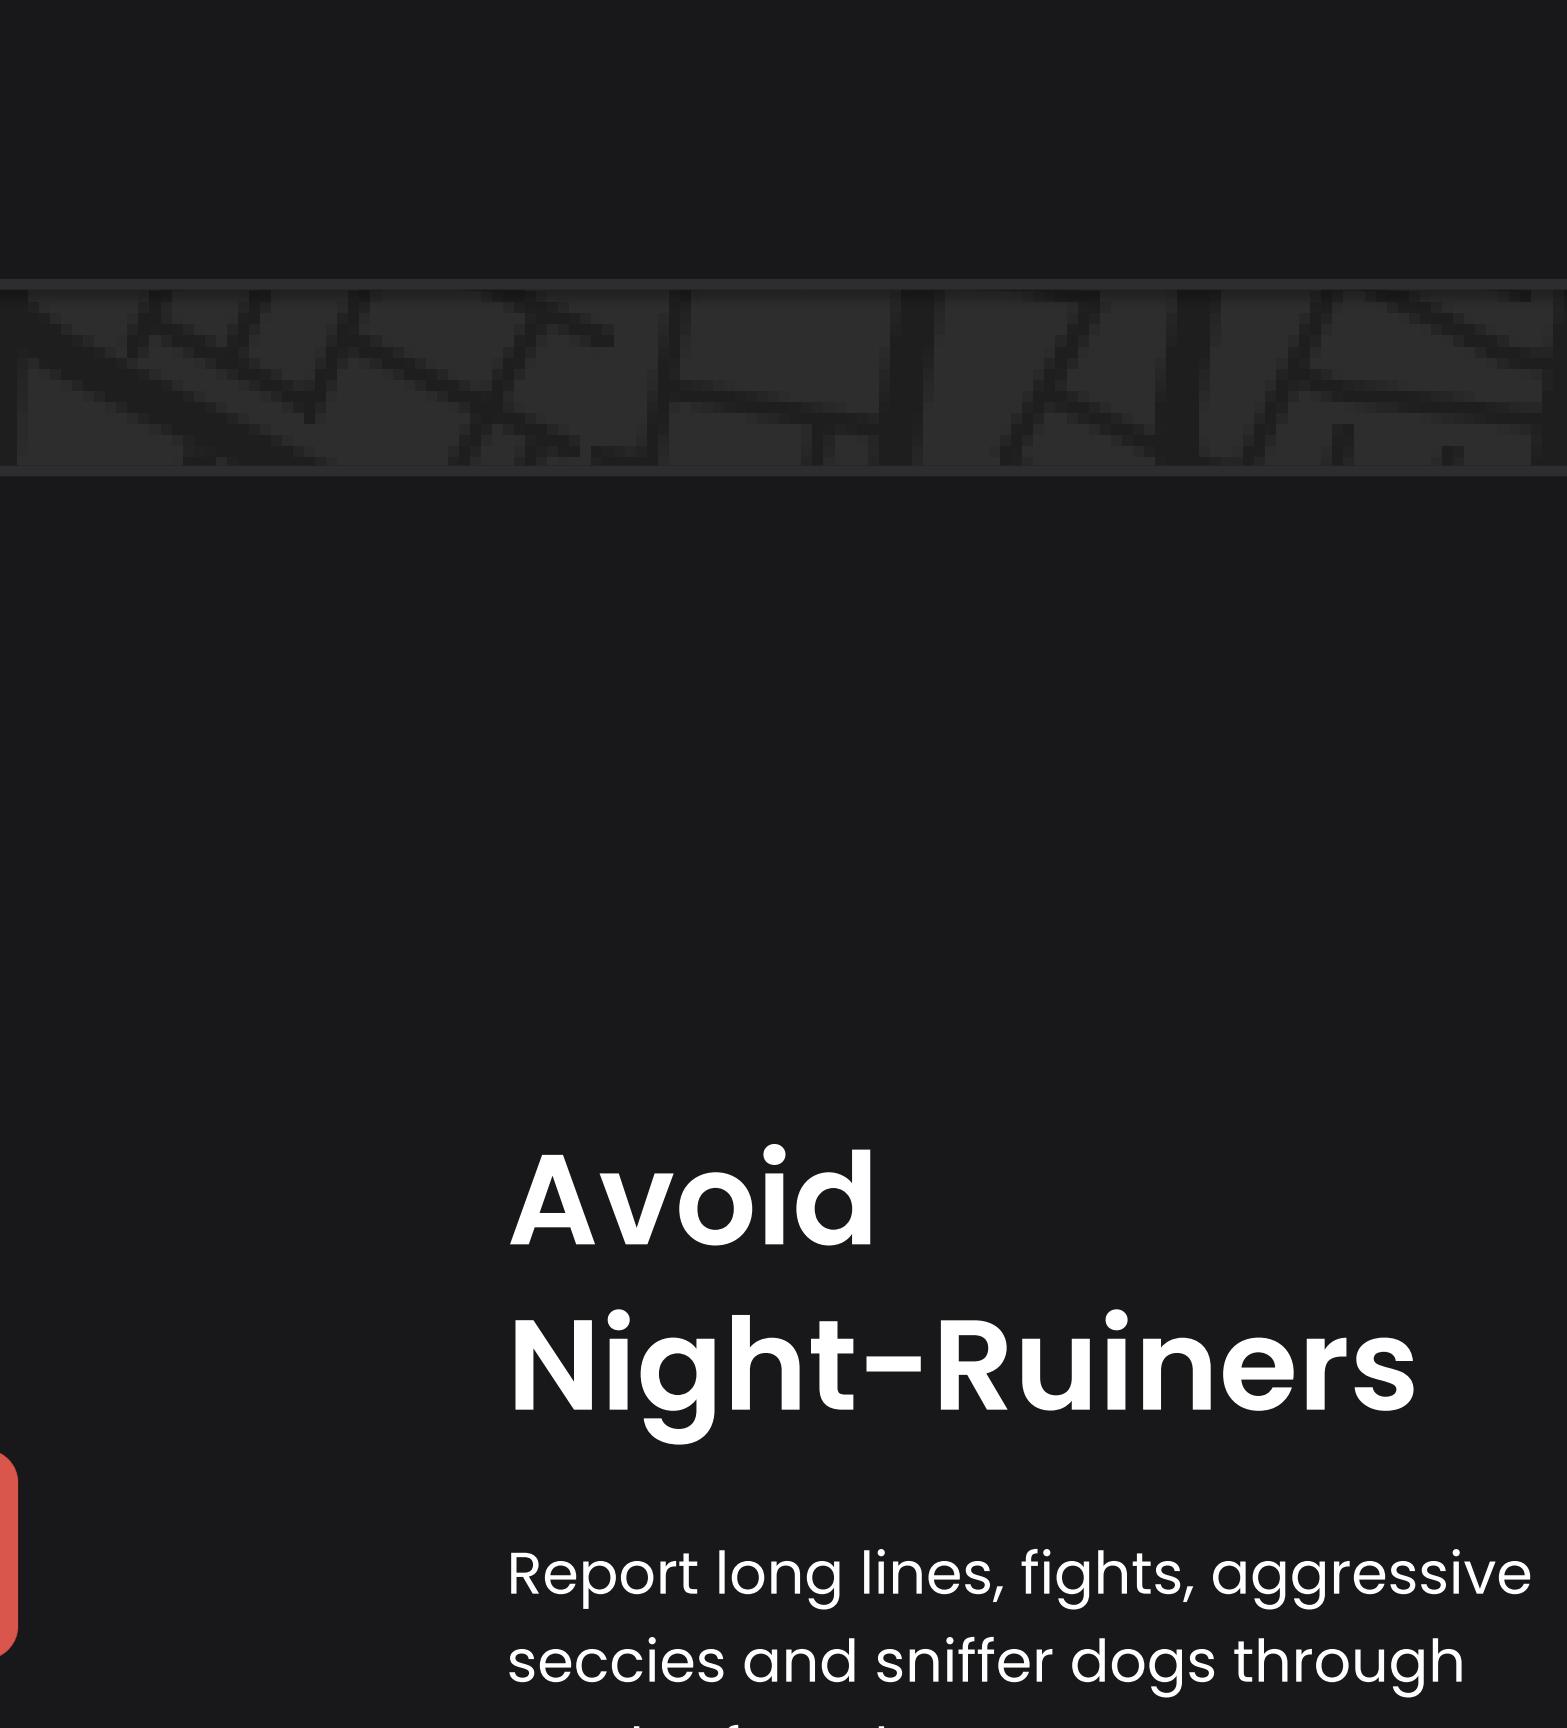

It doesn't matter if you're looking for drag or DJs, we got you covered.

Every event at every venue, visible in the app as soon as tickets become available.

## Save your Favourites

Save your favourite venues in the app so you can easily check what's happening without searching or using the map.

Less effort, more going out.

## Avoid Night-Ruiners

Report long lines, fights, aggressive seccies and sniffer dogs through Bardar for other users to see.

Use the reports others to avoid these fun-killers.

# IT SHOULD BE EASY TO HAVE A GREAT NIGHT OUT.

But too often dead venues, long lines, aggressive seccies or sh\*t music kill a night before it even gets going.

Bardar is an app created by Dex and Oli, two uni mates who were sick of having this happen.

We designed Bardar to help us and our friends make the most of every night out. If it can help you do the same, we think that's pretty f\*cking awesome.
